

HIGHCLIFFE ART FELLOWSHIP

NEWSLETTER JUNE 2018

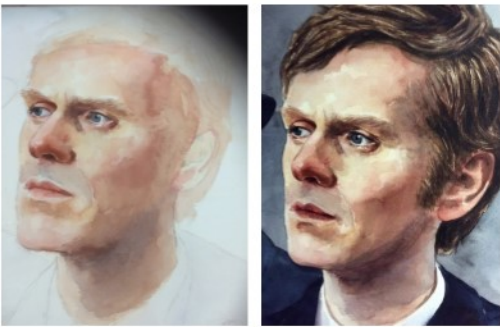

Message from our President, Josie Spencer, MBE.

I am delighted to introduce our HAF Newsletter. It enables us all to keep in touch and promote the activities of the Fellowship.

The founders some 55 years ago were wise to name the Highcliffe Art group a Fellowship, which to me suggests friendship whilst sharing mutual interests.

I know that we will all enjoy having news but I hope too that you will offer suggestions and ideas to our editor so that we can ensure our Fellowship continues to thrive.

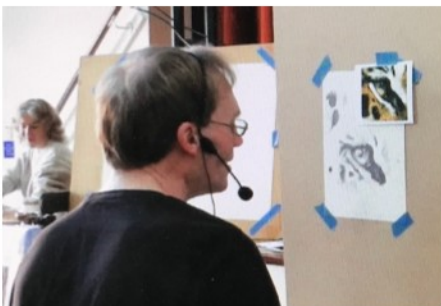

We have enjoyed excellent and varied demonstrations over the last few months.

Penny Crichton-Seager produced an incredible start of a portrait in watercolours of actor Shaun Evans. She completed it later.

We introduced our new boom system so that we could film the artist from above. This is displayed in real time on the TV screen and is also edited onto a DVD for future loan to Members.

Jamie Boots fascinated us by drawing, in graphite, just the eye of a tiger in the greatest detail. We have subsequently arranged a workshop with Jamie for our Members.

Professor Slinn gave us a dynamic illustrated talk on the life and work of Vincent van Gogh.
